

Foxboro Coventry Towns Homeowners Association, Inc.

June 24, 2013

Dear Foxboro Owner:

The purpose of this letter is to inform owners of repairs to specific driveways that will occur during the month of July 2013

**Driveways** – As you may have noticed, some of the driveways within Foxboro have sunk due to defects in the original construction. The Management Committee has determined that the most effective solution for repairing driveways is to lift those slabs that have sunk ½ inch or more (either near the garage door, or at the base of the driveway). Three (3) different concrete companies have provided bids for this lifting service. RK Concrete was chosen to perform the work, which consists of drilling a small hole and pumping concrete under the slab to lift it up to the appropriate level.

Indicated on the attached schedule are the specific addresses that will have their driveways lifted, along with the corresponding dates that the work is expected to be completed. Please note that these dates may not be exact as RK Concrete had to provide estimates, based on how long each driveway will take to repair. On the day of your scheduled repair, you will not be able to park your vehicle(s) in your driveway for two (2) hours, which is the approximate time it will take to lift the concrete and for the new concrete to cure. You can use the visitor parking areas for this two (2) hour period, but cannot leave your vehicle(s) parked in visitor parking overnight. If your car is parked in your garage, then you will be unable to move it for that two (2) hour period as well. If you have a vehicle(s) parked in your driveway - a RK Concrete representative will knock on your door and ask you to move your vehicle(s). If you do not answer the door, or do not move your vehicle(s), the repairs will not be completed. Any needed repairs will be addressed the next time the Management Committee considers driveway repairs.

**Flaking Driveways** – Please note that some driveways are flaking due to defects from their original construction. These driveways will likely need to be replaced at some future date when the needed funds are available. Please also note that sidewalks are not being repaired as part of this project.

**Safety** - Trucks, trailers, and lifting equipment will be on-site to complete the work of lifting concrete. Please take safety precautions by avoiding the worksites to the extent possible, and by keeping children well away from the worksites. The Management Committee has ensured that Foxboro was added as “additionally insured” on RK Concrete’s insurance policy through the duration of this project.

Please contact Nate Fotheringham with Rockworth Management ([nate@rockworthco.com](mailto:nate@rockworthco.com) or 801-617-0589) with any questions regarding this work.

Thank You,  
Foxboro Coventry HOA
